Tom,

Weatherly Borough currently uses an air stripper on Well #3 for the removal of organics. Weatherly Borough's PWSID # is 3130015 and Well #3 and its associated treatment is tied to Entry Point #103. Attached you will find the VOC results

from Entry Point #103 for the period 1/1/2015 to the present. As you will see, they are all non-detect. If you should need anything additional, please let me know?

Thanks,
